Draft King III at a glance

Steering point

The King Committee on Governance released the draft Code of Governance Principles for South Africa – 2009 (the draft "Code") and the draft Report on Governance for South Africa – 2009 (the draft "Report"), together referred to as "King III" in this document, for public comment on 25 February 2009. King III is open for comment for two months. A copy of King III can be found on the Institute of Directors (IOD)'s website www.iodsa.co.za.

The issuance of King III was necessitated by the anticipated new Companies Act of South Africa¹ and changes in international governance trends since the release of the second King Report on Corporate Governance for South Africa (King II) in 2002.

¹Although the Companies Bill, 2008 (which constitutes the redraft of the Companies Act, 1973) has not been enacted, it is referred to as "the Act" in King III.

In this Steering Point we focus on the key changes from King II. The next edition on King III will contain a King III disclosure checklist

1. Applicability of King III

King II applies to

- 1. Listed companies;
- 2. Financial institutions;
- 3. Public sector enterprises.

All companies are encouraged to give consideration to the application of King II insofar as the principles are applicable.

In contrast, King III applies to all entities regardless of the manner and form of incorporation or establishment. The principles, if adhered to, will result in any entity practising good governance. For that reason, the Code does not address the application of its principles and each entity will have to consider the approach that best suits its size and complexity. Application of the Code may however be mandated by law or regulation (such as by the JSE Limited Listings Requirements).

The terms "company", "boards" and "directors" refer to the functional responsibility of those charged with governance in any entity and should be adapted as appropriate. Furthermore as certain aspects of governance are legislated in the Companies Act and the Public Finance Management Act, the use of instructive language is important in reading and understanding the Report and Code. The word "must" indicates a legal requirement. In aspects where it is believed the application of the Code will results in good governance, the word "should" is used. The word "may" indicates areas where certain practices are proposed for consideration.

2. Governance framework - "Apply or explain"

King III follows an "apply or explain" approach. Where entities have applied the Code and best practice recommendations in the Report, a positive statement to this effect should be made to stakeholders. In situations where the board of directors (the "board") or those charged with governance decide not to apply a specific principle and/or recommendation, this should be explained fully to the entity's stakeholders.

3. Structure of King III – Code and Report

All entities should apply both the principles in the Code and the best practice recommendations in the Report. Each principle is of equal importance and together forms a holistic approach to governance. Consequently, 'substantial' application of the Code and Report does not achieve compliance.

King III – Key risk and reporting implications

4.1 Integrated reporting

King II had a chapter dedicated to integrated sustainability reporting. The concept of reporting on economic, social and environmental performance (the so-called "triple bottom line") is thus not new. However, there is growing global and local attention to sustainability issues.

King III requires the statutory financial information and sustainability information to be integrated in the "integrated report". An integrated report should be prepared annually.

The integrated report should have sufficient information to record how the company has positively and negatively affected the economic life of the community in which it operated during the year under review. The report should also contain forward-looking information on how the board believes it can enhance the positive aspects and negate the negative aspects that affect the economic life of the community in which it operates, in the future.

Integrated reporting cannot however be a matter of collating sustainability information and reporting at year end – sustainability reporting should be integrated with other aspects of the business process and managed throughout the year.

Assurance on sustainability reporting

King III requires that a formal process of assurance with regard to sustainability reporting should be established. The audit committee should consider and recommend to the board the need to engage an external assurance provider to provide assurance over the accuracy and completeness of sustainability reporting to stakeholders.

The board may delegate the responsibility for and review of integrated sustainability reporting to either the risk committee, sustainability committee or audit committee. The audit committee should however assist the board in their review of the sustainability reporting by ensuring that the information is reliable and that no conflicts or differences arise when compared to the financial results.

Impact on companies, boards and audit committees

- Companies will be required to dedicate time and resource to the preparation of the integrated report.
- Integrated reporting entails more than a mere "add-on" of economic, social and environmental information in the annual report – sustainability reporting should be embedded in the organisation.
- The responsibility of the audit committee may be extended beyond financial reporting to include sustainability reporting.
- Audit committees may need additional expertise in discharging their responsibilities.

4.2 Combined assurance

Management, internal assurance providers (such as internal audit) and external assurance providers (such as external audit) are role-players in providing assurance to the board over risks in an enterprise.

A combined assurance model effectively co-ordinates the efforts of management and internal and external assurance providers, increases their collaboration and develops a shared and more holistic view of the organisation's risk profile. A combined assurance model aims to be the antidote to "assurance fatigue" which can result from an uncoordinated assurance approach.

King III tasks the audit committee with the responsibility of monitoring the appropriateness of the company's combined assurance model and ensuring that significant risks facing the company are adequately addressed.

Impact on companies, boards and audit committees

- Audit committees should identify the significant risks facing the company.
- An assessment of in-house skills and the qualifications/ track record of external assurance providers should be performed.
- Audit committees to coordinate the utilisation of appropriate assurance providers in the assurance model to provide assurance on the identified risks.
- A combined assurance model may result in the increased utilisation of external assurance providers.

4.3 Annual review of internal financial controls

King II requires the directors to report in the annual report that an effective system of internal controls and risk management has been maintained.

King III requires a statement from the board on the effectiveness of internal financial controls, and requires this statement to be supported by a formally documented annual review of internal financial controls. King III furthermore requires the board to state in the integrated report that they have established formal policies and frameworks for the design and implementation of the system of internal financial controls, and that a review of internal financial controls has taken place.

The audit committee should determine the nature and extent of the formal documented review of internal financial controls and should conclude and report annually to the board on the effectiveness of internal financial controls.

In contrast to, for example, the Sarbanes-Oxley Act, King III does not require external attestation on the board's statement on internal financial controls.

Process of reporting on internal financial controls

Audit committee to determine the nature and extent of an annual review of internal financial controls

Management / Internal audit to conduct a formal documented review of internal financial controls

Management / internal audit to report to the audit committee on the effectiveness of internal financial controls

Audit committee to holistically consider all information from management, internal audit, and external assurance providers and report their conclusion on internal financial controls to the board

Board should make a statement on the effectiveness of internal financial controls in the integrated report

Impact on companies, boards and audit committees

- Increased time and resource commitments for audit committees, management and internal audit regarding a formally documented review of internal financial controls.
- Boards should assess the adequacy of available skills to conduct internal financial control reviews.
- The board is accountable as their conclusions on the effectiveness of internal financial controls are on public record.

4.4 Risk-based internal audit

King II acknowledged the role of an effective internal audit function in good corporate governance. King III emphasises that internal audit should follow a risk based approach to its plan. The chief audit executive (CAE)'s internal audit planning should take the form of an assessment of the company's strategic, financial, IT, operational, human and environmental risks and opportunities and should:

- align with the company's risk assessment process (considering the risk maturity of the company);
- focus on rendering an assessment of the company's control environment;
- consider the company's risks and opportunities identified by management and other key stakeholders;
- · take cognisance of industry relevant emerging issues; and
- discuss the adequacy of the resources and skills available to the CAE with the audit committee.

- Internal audit planning and approach should be riskbased rather than compliance-based.
- A CAE of appropriate stature, who has the respect and cooperation of the board and management, should be appointed.
- Internal audit reporting lines should be evaluated –
 internal audit should report at a level in the company
 that allows it to remain independent and objective to
 ensure it fully achieves its responsibilities.
- Consideration to be given to the CAE becoming a member of the company's executive committee.

4.5 IT governance

IT governance is dealt with in detail in King III for the first time. In exercising their duty of care, directors should ensure that prudent and reasonable steps have been taken in regard to IT governance.

IT governance should focus on four key areas:

- strategic alignment with the business and collaborative solutions, including the focus on sustainability and the implementation of 'green IT' principles;
- value delivery: concentrating on optimising expenditure and proving the value of IT;
- risk management: addressing the safeguarding of IT assets, disaster recovery and continuity of operations; and
- resource management: optimising knowledge and IT infrastructure.

COBIT may be used as a check for the adequacy of the company's information security – there is however not a "one size fits all" solution.

Impact on companies, boards and audit committees

- The board should operate with IT governance in mind.
- IT should be on the board agenda.
- IT performance should be measured and reported to the board.
- The board should set a management framework for IT governance based on a common approach (for example COBIT).
- Audit committees should oversee IT risks and controls.

Other new concepts/topics introduced in King III

5.1 Shareholder approval of remuneration policies

King III requires the board (with the assistance of the remuneration committee) to put forward a policy of remuneration to the shareholders for their approval in general meeting.

5.2 Directors' performance evaluation

While King II recommended the self-evaluation of the board, its committees and the contribution of each individual director, King III requires the board to consider whether the evaluation of performance should be done in-house or conducted professionally by independent service providers, subject to legislative requirements.

5.3 Business rescue

A section on business rescue has been included in the Boards and Directors chapter to address governance in business rescue proceedings. In summary, King III requires the board to commence business rescue proceedings as soon as the company is financially distressed.

5.4 Alternative dispute resolution (ADR)

King III recognises that ADR has become an important element of good governance. This is in line with the Companies Act which offers parties the option of resolving disputes through ADR. King III favours mediation or conciliation and, failing that, arbitration. Benefits of ADR over more traditional dispute resolution processes, such as referral to a court or utilisation of formal dispute resolution institutions created by statute (for example the Companies Tribunal), include reaching conclusions faster, the ability to conduct ADR processes in private and the opportunity for creative or novel solutions.

Mediation is not defined in the Act but may be defined as a process where parties in dispute involve the services of an acceptable, impartial and neutral third party to assist them in negotiating a resolution to their dispute, by way of a settlement agreement. The mediator has no independent authority and does not render a decision. All decision making powers in regard to the dispute remain with the disputing parties.

Conciliation is similarly not defined in the Act. Conciliation is a structured negotiation process involving the services of an impartial third party. The conciliator will, in addition to playing the role of a mediator, make a formal recommendation to the parties as to how the dispute can be resolved.

An example ADR clause has been developed by the IOD and the Arbitration Foundation of Southern Africa (AFSA) and settled by senior counsels. This example clause is set out in the Report and can also be obtained online from www.iodsa.co.za .

5.5 Fundamental and affected transactions

Chapter 9 in King III deals with fundamental affected transactions. This was not dealt with in King I or King II.

Current indications are that the Takeover Regulations will be promulgated during 2009. Chapter 9 sets out generally accepted principles of good governance which supplement the Takeover Regulations.

In summary:

- Directors must disclose any conflict or potential conflict of interest:
- Directors involved with affected transactions must not be conflicted;

- In an affected transaction, an offerree company board must consist only of independent directors, whether executive or non-executive ("independent board");
- Each member of the independent board should ensure that he has received all necessary information in order to provide a fully informed opinion to relevant shareholders concerning the affected transaction;
- The independent board must express an opinion to shareholders;
- Offeree companies must appoint independent competent advisers;
- Negotiations should be kept confidential. If confidentiality is breached relevant information should be disclosed;
- Offerors must treat all offeree company shareholders equitably.

6. Highlights of selected chapters

6.1 Boards and directors - Comparison with King II

	King III	King II
Board structure	Similar to King II.	Unitary board structure with executive directors and non-executive directors interacting in a working group
Composition of the board	The board should comprise a balance of executive and non-executive directors, with a majority of non-executive directors. The majority of non-executive directors should preferably be independent.	The board should comprise a balance of executive and non-executive directors, preferably with a majority of non-executive directors of whom sufficient should be independent of management.
Executive director	Similar to King II.	An individual who is involved in the day-to-day management and/or is in the full time salaried employment of the company and/or any of its subsidiaries.
Non-executive director	Similar to King II.	An individual not involved in the day- to-day management and not a full-time salaried employee of the company or of its subsidiaries. An individual in the full-time employment of the holding company or its subsidiaries, other than the company concerned, would also be considered
		to be a non-executive director unless such individual by his/her conduct or executive authority could be construed to be directing the day-to-day management of the company and its subsidiaries.

	King III	King II		
Independent non-executive director	A non-executive director who:	A non-executive director who:		
	i. Is not a representative of a shareholder who has the ability to control or significantly influence management;	i. Is not a representative of a shareowner who has the ability to control or significantly influence management;		
	ii. Similar to (ii) in King II;	ii. Has not been employed by the company or the group of which it currently forms part, in any executive capacity for the preceding three financial years;		
	iii. Similar to (iii) in King II;	iii. Is not a member of the immediate family of an individual who is, or has been in any of the past three financial years, employed by the company or the group in an executive capacity;		
	iv. Similar to (iv) in King II;	iv. Is not a professional advisor to the company or the group other than in a director capacity;		
	v. Is free from any business or other relationship which could be seen to interfere materially with the individual's capacity to act in an independent manner.	v. Is free from any business or other relationship which could be seen to materially interfere with the individual's capacity to act in an independent manner;		
	vi. Does not have a direct or indirect interest in the company (including any parent or subsidiary in a consolidated group with the company) which is either material to the director or to the company. A holding of five percent or more is considered material; and	vi. Is not a significant supplier to, or customer of the company or group; and		
	vii. Does not receive remuneration contingent upon the performance of the company.	vii. Has no significant contractual relationship with the company or group.		
Minimum number of directors on the board	As a minimum, two executive directors should be appointed to the board, being the chief executive officer and the director responsible for the finance function. For listed companies, a financial director must be appointed to the board from June 2009.	Not addressed.		
Frequency of board meetings	Not addressed.	The board should meet regularly, at least once a quarter if not more frequently as circumstances require.		

	King III	King II
Rotation of non-executive directors	A programme ensuring staggered rotation of non-executive directors should be put in place. Rotation of board members should be structured so as to retain valuable skills, to have continuity of knowledge and experience and to introduce persons with new ideas and expertise. At least one third of non-executive directors should retire by rotation at the company's AGM or other general meetings. The retiring board members may be re-elected, provided they are	Rotation of non-executive directors not addressed specifically. Regarding rotation of directors in general: There should be an effective programme of continuing rotation of appointments in respect of each individual director. All companies should adopt a process of staggered continuity and re-election of their boards to ensure continuity of experience and knowledge.
Removal of CEO	The memorandum of incorporation of the company should allow the board to remove the CEO as an executive director on the board without shareholder approval being necessary.	Not addressed.
Chairman of the board	The chairman of the board should be an independent non-executive director. The chairman of the board should not be the CEO.	The chairperson should preferably be an independent non-executive director. It is preferable that the chairperson and the CEO functions are kept separate.
Lead independent non-executive director	Should be appointed if the chairman of the board is not independent and free of conflicts of interest on appointment.	Consideration should be given to appointing a senior independent or "lead" director to fulfil a role where any difficulties or conflicts arise between the non-executive component of the board and the executives, as well as in assisting the chairperson in fulfilling his tasks where required. Such an appointment should be considered where the roles of the chairperson and the CEO are combined, or even where both the
		chairperson and deputy chairperson might be executive directors.
Share options for non-executive directors	Non-executive directors should not receive share options.	Share options may be granted to non-executive directors but must be the subject of prior approval of shareowners.
Board committees	Unless legislated otherwise, the board should appoint the audit, risk, remuneration and nomination committees as standing committees. Smaller companies need not establish formal committees to perform these functions but should ensure that these functions are appropriately addressed by the board.	All companies should have, as a minimum, audit and remuneration committees.

6.2 Chairman of the board, CEO and membership/chairmanship of board committees

Summary of King III requirements:

	Member of the audit committee	Member of the remuneration committee	Chairman of the remuneration committee	Member of the nomination committee	Chairman of the nomination committee	Member of the risk committee	Chairman of the risk committee
Chairman of the board	No	Yes ¹	No	Yes ²	Yes ³	Yes ⁴	No
Chief Executive Officer	No ⁵	No ⁶	No	No ⁷	No	Yes ⁸	No

6.3 Board committees

Board committees should only comprise members of the board. External parties may be present at committee meetings by invitation.

The respective committees' chairmen should give at least an oral summary of their committee's deliberations at the board meeting following the committee meeting.

	Audit committee	Remuneration committee	Nomination committee	Risk committee
Chairman	Independent non- executive director	Independent non- executive director	Not specified in King III	Non-executive director
Membership	All members must be board members	All members must be board members	All members must be board members	All members must be board members
	All members should be independent non-executive directors	All members should be non-executive directors	All members should be non-executive directors	Executive and non- executive directors
		Majority of members should be independent	Majority of members should be independent	
			Board chairman to be a member	

¹The chairman of the board may be a member of the remuneration committee

²The chairman of the board should be a member of the nomination committee

³The chairman of the board may chair the nomination committee

⁴The chairman of the board may be a member of the risk committee

⁵The CEO should attend by invitation

⁶The CEO should attend by invitation

⁷The CEO should attend by invitation

⁸King III does not prohibit the CEO from being a member of the risk committee

6.4 Audit committees - Comparison with King II

	King III	King II
Membership	All members at holding company level for companies incorporated in South Africa should be independent non-executive directors. Audit committees at subsidiary level	Majority of the members should be independent non-executive directors. Audit committees at subsidiary level not addressed.
	that will act as a subcommittee of the holding company may appoint executive directors within the group as audit committee members provided the group audit committee accepts overall responsibility.	
Minimum number of members	Audit committees should consist of at least three members.	Not addressed.
Qualifications	have a good understanding of financial risks, financial and sustainability reporting and internal	Majority of members should be financially literate.
	 controls, possess sufficient and relevant knowledge of corporate law, have a thorough understanding of IFRS/ SA GAAP/ GRI standards or any other financial reporting framework or set of standards applicable to the company. 	
Frequency of meetings	At least twice a year.	Not addressed.
Responsibility regarding sustainability reporting	The board may delegate the responsibility for and review of the integrated sustainability section of the integrated report to either the risk committee, sustainability committee or audit committee. The audit committee should assist the board in reviewing the sustainability reporting to ensure that the information is reliable and that no conflicts or differences arise when compared with the financial results. The audit committee should consider and recommend to the board the need to	Not addressed.
	engage an external assurance provider to provide assurance over the accuracy and completeness of sustainability reporting.	

7. Our services

Directors Suresh Kana and Anton van Wyk serve on the King Committee and chaired the King III Accounting and Auditing and Internal Audit subcommittees respectively. Suresh, Anton, directors Alison Ramsden and Rob Newsome, supported by other corporate governance experts, have the necessary expertise to assist you in the application of the draft King III requirements. Our services in this area include:

- · advising companies on governance and ethics,
- · advising on effectiveness of internal audit,
- providing an outsourced internal audit function,
- · assisting with risk management solutions,
- sustainability reporting assurance.

For further information, please contact your PwC engagement partner or any of the following:

Suresh Kana

011 797 4312 Assurance Leader and CEO elect

Anton van Wyk

011 797 5338 Director – Internal audit

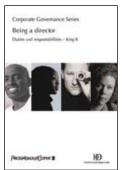

Alison Ramsden

011 797 4658 Director – Governance and Sustainability

Rob Newsome

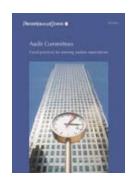

011 797 5560 Director – Risk and Regulatory services

Publications available from the PricewaterhouseCoopers Library on corporate governance:

Being a director, Duties and Responsibilities - King II

The publication covers the duties and responsibilities of directors for the effective governance of their companies.

2003 - Audit Committees - Good practices for meeting market expectations (2nd edition)

The 2nd edition of our global guide on Audit Committees summarises best practices and requirements in over 40 countries. It covers all aspects of an audit committee's work, including: organisation (terms of reference, membership, meetings): key responsibilities; communicating and reporting by the committee; and evaluating audit committee effectiveness.

2006 - Current developments for audit committees

In addition to supporting the role of audit committee oversight of Section 404 of the US Sarbanes-Oxley Act, this publication highlights some of the other significant governance developments and their implications to help audit committees cope with ongoing regulatory, legislative and other changes in the business environment.

2005 - Audit committee effectiveness - What works best (3rd edition)

The report captures how leading audit committees are effectively and thoughtfully discharging their expanded duties. It also provides numerous examples of how leading audit committees are not just complying with, but surpassing, requirements.

Steering Point - November 2006

This edition explains the auditor's obligations to report "reportable irregularities" and examines how the requirement to report affects organisations and more specifically boards and audit committees.

Steering Point - February 2007

This edition summarises the main changes contained in the Corporate Laws Amendment Act, 2006. It discusses the key considerations for audit committees and those charged with governance.

For further information on these and other publications, please contact your engagement partner or the PricewaterhouseCoopers library at +27 (11) 797 5062.

Disclaimer: This document is not intended to consitute legal or professional advice. The purpose of the document is to provide readers with a guideline of certain provisions of draft King III but is not a substitute for reading the detailed provisions of draft King III.
